About

I have **2 years** experience as a **Software Developer**. Developed and launched in-house applications, SDK's, and websites using Kotlin, React.js, Next.js and other technologies, achieving positive user feedback and improved site performance. Played a key role in front-end development for dashboards and contributed to multiple web projects. possesses skills in mobile and web development, and DevOps

Education

2019-2023

● Jaypee University Of Engineering and Technology

Bachelor of Computer Science, Artificial Intelligence

I graduated in January 2023 with a CGPA of 8.4.

Experience

● Z1 Tech

Software Developer | Feb 2023 – present

• **Flapster and Pixel Perfect:** Successfully launched two in-house applications catering to specific user needs with tailored functionalities.

SDK Development

• **Ads Mediation Library:** Developed a comprehensive Ads Mediation Library that simplifies the integration of ads from various platforms into a single SDK.

• **Functionality:** Helps publishers manage and optimize ad placements without needing to individually integrate each ad network's SDK.

• **Technologies Used:** Kotlin, Java

• **Achievements:** Enhanced ad revenue by optimizing ad delivery and improving fill rates, resulting in a 20% increase in ad revenue for publishers using the SDK.

Web Development

• **Websites:** Contributed to the development and maintenance of several key websites, including **z1tech.com**, **vdo.ai**, **woz.ai**, and **xuno.ai**.

• **Functionality:** These sites serve diverse functions from corporate information to video ad solutions and AI-driven platforms.

• **Technologies Used:** React.js, JavaScript, HTML, CSS, Next.js

• **Frontend Development:** Played a pivotal role in building the frontend of dashboards for the **woz-chatbot** and **xuno dashboard**.

• **Technologies Used:** Larevel Framework, HTML, CSS, Javascript, React.js

• **Achievements:** Enhanced user experience by creating clean, user-friendly interfaces that facilitate efficient data visualization and interaction.

● Demotic Technologies PVT. LTD.

Mobile App Developer | Aug 2022 – Nov 2022

- Develop an existing app and add some new feature in it.
- Fix and remove the bugs from an application.
- Technology Used – Flutter, Dart, Cloud Messaging, GetX.
